

### **Accommodation & Hometown:**

Where is your hometown?

What do you like about it?

What do you not like about it?

How important is your hometown to you?

Do you think you will continue to live in your hometown?

Tell me about the kind of accommodation you live in?

Does the place you live in have many problems?

Is there anything you would like to change about the place you live in?

Do you plan to live there for a long time?
